ABOUT ME

A certified SAP CX Consultant with a rich experience across Sales Cloud, Service Cloud, and Employee Central Service Centre. I bring end-to-end project expertise – from requirement gathering and implementation to training and continuous improvement. Known for versatility, I adapt between consulting, process analysis, and support, ensuring technology and business goals stay aligned. Currently based in Hamburg with full work rights, seeking opportunities to drive digital transformation in Germany.

WORK EXPERIENCE

Blueprint Technologies Private Limited – Remote, India

SAP CX Senior Consultant

[05/01/2023 – Current]

Responsibilities

- Manage and regularly update SAP CX demo tenants, ensuring alignment with the latest releases and best practices.
- Build curated proof-of-concepts (POCs) and demo scenarios for leads, prospects, and existing customers.
- Partner with pre-sales teams to support opportunity shaping and deal closures.
- Create project initiation and specification documents as needed (e.g., scope, requirements, solution outline).
- Implement SAP Sales Cloud, Service Cloud, and Enterprise Service Management for customers.
- Plan and execute cutover activities, change management, and end-user adoption programs.
- Act as project support coordinator, overseeing day-to-day incident resolution and complex change requests.
- Train internal team members on SAP Sales Cloud and Service Cloud V2.
- Experience across implementations and brownfield transitions to SAP Sales and Service Cloud V2

Activities

- Adopted and enabled the latest SAP CX features and innovations across organizational demo tenants.
- Led extensive pre-sales workshops with prospective clients, gathered landscape inputs, and translated them into bespoke end-to-end process flows within SAP CX demo environments.
- Produced documentation across the delivery lifecycle – from Business Requirements Documents (BRDs) to user training manuals to drive adoption.
- Contributed to an SAP Sales Cloud digitalization projects spanning 7 countries across the GCC region.
- Worked extensively on the Campaign-to-Cash process, including process design and system configuration.
- Configured and showcased advanced add-ons and integrations such as ISE, Microsoft Teams/Outlook integration, Buying Center, Accounts 360, and related innovations.
- Supported a hybrid enhancement/support/integration engagement for an Indo–Chinese customer, handling enhancement requests, new feature adoption, and production incidents for SAP Sales Cloud & Service Cloud.
- Contributed to an Enterprise Service Management rollout for a global client across North America, Europe, and Africa.
- Established a SAP CX Center of Excellence (CoE) to build differentiated POCs leveraging SAP's newly introduced microservices architecture, in close collaboration with the AI, BTP & the Analytics teams.

- Designed and launched a collaborative internal training program to upskill teams on SAP Sales Cloud V2, Service Cloud V2, and Enterprise Service Management, supporting readiness for V1-to-V2 transition projects.
- Supported delivery teams on both SAP Sales/Service Cloud V1 to V2 transition projects and a greenfield implementation on SAP Sales Cloud and SAP Service Cloud V2.

Colgate-Palmolive – Mumbai, India

SAP CX Inhouse Consultant

[16/09/2019 – 13/07/2022]

Responsibilities

- Conduct requirement gathering workshops for project initiation.
- Implement SAP Sales Cloud for countries with existing legacy ECC and CRM applications.
- Plan and execute a systematic cut-over process.
- Design testing modules and training modules for end-users and power users.
- Act as a cross-functional resource to support hybrid projects.
- Work as Support Coordinator
- Design OKRs and monitor progress of the Support Team.
- Provide resolutions to incidents/tickets raised by end-users.
- Manage vendors during projects when required.

Activities

- Designed project initiation presentations and conducted detailed requirement gathering workshops for all projects.
- Implemented SAP Sales Cloud for 12+ countries, involving 5 projects and 3 separate C4C tenants.
- Specialised in Initial Set-up, Data Migration using Data Workbench, Products & Assortment Management, KUT fields, Custom Rules in Page Layouts, Rules Management for both Territories & Sales.
- Worked extensively in Visit Execution, Accounts & Contact Management, Surveys & Sales Order configuration.
- Experienced in Reports & Dashboards creation, Dynamic Mashups, Data Source creation.
- Implementation projects involved a cumulative number of 2000+ end-users, 50,000+ SKUs, 100,000+ Accounts, 500,000+ contacts, 800,000+ visits and more than 1,000,000+ Sales Documents for which extensive planning, data migration and data synchronization was done.
- Spearheaded the cutover planning committee for ensuring smooth transition from the Quality to Production environments of SAP C4C.
- Specialized in designing use-cases, user-stories, user-personas for testing and feedback phases.
- Built training modules for user adoption purposes. Extensively trained power-users as part of change management initiatives.
- Worked on Support Tickets from various environments like SAP ECC, SAP CRM & SAP Sales Cloud.
- Manged a support team of 15+ members by setting expectations on performance. Routinely acted as a bridge between our business and support team.
- Specialized in implementing change requests from Business Heads while also ensuring scalability and sustainability of the solutions provided.
- Support highlights include working on more than 500+ tickets, with 40% of them being extensive Change Requests.
- Exceeded OKRs consistently and was in the top 5% of performers.
- Managed vendors who provided data integration services with SAP C4C.
- Worked as a cross-functional resource for projects connecting SAP Sales Modules to Service Cloud and Marketing Cloud by providing subject matter expertise.

Neeyamo Enterprise Solutions Private Limited – Pune, India
